Executive Summary

Senior Enterprise Transformation Advisor with 36+ years of leadership experience spanning manufacturing, operational excellence, strategic consulting, sustainability, business transformation, and executive advisory. Proven track record of helping organisations improve enterprise performance, profitability, governance, operational resilience, and sustainable growth through structured transformation methodologies and executive-level advisory.

Founder & CEO of **S3 Optistart Consulting**, where he has developed a portfolio of proprietary consulting frameworks including **Enterprise Operational Intelligence (EOI™)**, **Carbon Asset Development And Monetisation Advisory™**. Advises organisations across manufacturing, industrial, technology, healthcare, education, and services sectors on business strategy, operational excellence, ESG, AI adoption, market intelligence, and transformation execution.

Combines more than three decades of executive manufacturing leadership with modern consulting methodologies, enabling organisations to bridge strategy and execution while delivering measurable business outcomes.
