About the Founder: Consultancy Experience

Unique and Diverse Skillset: Key Projects Executed

1. Market Research & Feasibility Study for US Toy Industry Entry (Production in India)

This project honed my ability to analyze target markets and craft data-driven narratives. For your firm, I would apply this skill to identify and articulate your unique value proposition to legal and compliance professionals.

2. Expert Market Research Analyst for AI-Powered Reports:

My experience in synthesizing complex data into actionable insights aligns with your need for engaging, evidence-based content. I can translate your firm's compliance expertise into clear, persuasive digital assets.

3. Strategy & Ops Expert for Scalable CX & Expert Success Design:

Here, I designed frameworks for scalable customer engagement strategies. This experience directly translates to creating cohesive digital marketing campaigns that resonate with your target audience.

4. Driving On-Time Deliveries in Manufacturing:

My track record of managing high-stakes projects ensures your corporate presentation and content will be delivered on time, with the precision expected of a Big 4-level firm.

5. Localizing PSA Module for a Canadian MNC:

This project required cross-cultural communication and localization expertise, a skill I would leverage to ensure your content resonates globally while maintaining your firm's professional rigor.

6. Strategy Consultant for LeaseEasy Mobile:

I led strategic initiatives for a mobile product launch, crafting messaging that balanced technical detail, including financial forecasting details, with accessibility. This mirrors the need to communicate your firm's compliance services clearly to diverse stakeholders.

7. Expertise in ESG frameworks and M&A:

I demonstrated the ability to distil complex financial and operational insights into clear, persuasive proposals.
